

INTERSTAR

Move with confidence

Robust, reliable and effortlessly practical. The new Nissan Interstar keeps you one step ahead whatever the task. With a wide range of derivatives available, make yours the perfect tool for the job.

Key performance indicator

TWIN TURBO ENGINE*

Power & efficiency. Interstar's 2.3L dCi Twin Turbo delivers higher output and reduced fuel consumption and lower CO₂ emissions*. Low costs of ownership. Service intervals of up to 25 000 miles or every 2 years contribute to Interstar's low running costs.

FRONT OR REAR WHEEL DRIVE

Select the drivetrain to best suit your business. Choose FWD for easy loading, more payload and better fuel economy or opt for RWD, with single or twin rear wheels, for an improved handling with heavier loads or when towing.

NEW NISSAN INTERSTAR CAN HANDLE IT

Benefit from maximum load space with 10 available cargo volumes, up to 4.4m in cargo length and payloads up to 1587kg (for Van) or up to 1,846kg (for Platform Cab)

Up to 4.4m

Create the perfect match

Unbeatable potential. New Nissan Interstar offers one of the widest ranges in the LCV market. A choice of wheelbase, length and height, payload, engines, front or rear wheel drive plus body conversions provides all the possibilities you need to create your perfect match.

A place for everything

A tidy cab is safer and easier to live with nothing rolling around your feet, no wasted time hunting for items. That's why new Nissan Interstar has many clever storage spaces, such as the centre front seat table with a standard fix tray or an optional rotating tray and pop-up tablet.

Rotating centre front seat table*

Dual split underseat storage compartment*

*Features available depending on version, as standard or only as option (at an extra charge)

New Nissan Interstar can take it

More usable space. Whichever size Interstar you choose, it's packaged to provide maximum load space. There are ten cargo volumes, from 8m³ to 17m³ for Interstar Panel Vans. Cargo volume can take up to 5 Europallets, and there's up to 4.4m cargo length available, giving you room for bulky loads.

New Nissan Interstar handles heavy loads too: payloads up to 1,587kg (for Van) or up to 1,846kg (for Platform Cab).

No matter how big or awkward your cargo, Interstar makes it easier to get on board, thanks to a low floor and large, wide-opening doors.

FRONT WHEEL DRIVE

Front wheel drive new Nissan Interstar has a low chassis height, making loading especially easy and liberating more space for improved efficiency. Low kerb weight contributes to better fuel economy too.

Front or rear wheel drive

Best for your business. New Nissan Interstar gives you the choice of front or rear wheel drivetrains, across a variety of body styles.

REAR WHEEL DRIVE

Rear wheel drive is the traditional choice for medium and heavy duty applications. It allows your payload to be evenly distributed front to back, ensuring an improved handling when fully loaded. Available with single or twin rear wheel configurations, new Nissan Interstar rear wheel drive is ideal for towing up to 3,500 Kg.

Higher output, lower consumption, reduced emissions

More powerful, more efficient. The new Nissan Interstar's 2.3 litre dCi Twin Turbo engine is available in 110HP, 135HP, 150HP, 180HP with Euro6D-Full homologation and in 130HP, 145HP and 165HP with EuroVIe homologation. All delivering outstanding performance with great fuel economy (up to 32.8 MPG on 150HP FWD, WLTP combined). All engines are EURO 6D compliant featuring a selective catalytic reduction (SCR) system to further reduce emissions. Low running costs. Service intervals of up to 25 000 miles or every two years contribute to Interstar's impressively low Total Cost of Ownership.

Always be in the optimum gear. The new Nissan Interstar has a six-speed manual gearbox with a dashboard indicator light showing when to change gear for the best fuel economy. If you want to give your left foot a rest, a semi-automatic robotised transmission is available with the 150HP or 180HP engines.

Eyes all round

Front and rear parking sensors* are just one of many intelligent driving assistance systems available on the new Nissan Interstar. While manoeuvring at low speed, the system detects objects in your path, both front and rear, and warns you as you get closer to them.

LANE DEPARTURE WARNING*

Lane Departure Warning provides an alert to the driver if they are beginning to leave the traveling lane. The system visually monitors the left and right side lane markers of the traveling lane. If there is a risk of the vehicle leaving the traveling lane unintended, the system flashes an indicator and sounds a warning chime.

BLIND SPOT WARNING*

Assists the driver to avoid a collision by detecting vehicles in the blind spot area when changing lanes. When the system detects a vehicle driving in an adjacent lane approaching the rear of the driver's vehicle - a common blind spot area, it notifies the driver with an indicator.

AUTO HIGH LOW BEAM*

Automatically switches headlights to low beam from high beam and back to reduce driving burden. This system automatically switches the headlights setting to low beam from high beam when it detects a vehicle ahead. Frequent usage of high beams allows for earlier detection of pedestrians, supporting safer driving.

SIDE WIND ASSIST*

Side wind assist technology detects sway caused by gusts of wind from the side when the vehicle is driving in a straight line and limits the side movement by correcting the trajectory.

HILL START ASSIST*

Assisting starting off on a slope. This technology allows drivers to change pedals easily from the brake to the accelerator and carry out a safer hill start.

INTELLIGENT TRACE CONTROL*

It automatically stabilises the vehicle by applying braking to each wheel individually and reducing engine torque if necessary. It uses sensors to measure the turning speed of the wheels, the steering angle and the rotation of the vehicle around the vertical axis.

Rear view camera*

Rear View Camera with display in mirror*

Blind spot mirror

Driver and passenger airbags

* Features available depending on version, as standard or only as option (at an extra charge)

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances.

Speed and other limitations apply. For terms and conditions relating to Nissan technologies, please contact your Nissan dealer or www.nissan.co.uk

INTERSTAR

Easier driving. Helpful technology.

Nissan's approach to innovation is to take the most advanced and useful features and make them more accessible to everyone. Our technology is simple to operate, so driving becomes safer and more enjoyable. Standard digital radio improves the sound quality and enhances the listening experience.

Conversion, new Nissan Interstar lineup Ready for business

Thanks to the low and robust chassis, new Nissan Interstar is the ideal basis for a wide range of conversions. Nissan is always seeking ways to help you drive your business forward, that's why we have developed Business Ready solutions. NISSAN BRANDED CONVERSIONS are off-the-shelf bodies designed by Nissan and covered by our 5 year warranty. You can benefit from best lead times since you won't need to contact any Body builder yourself. Whether you need a Dropside, a Tipper, a Box or a Crew Van, your Business Ready Manager at your nearest Nissan dealer will see your order through, from selection to delivery to ongoing maintenance. Easy-to-order: having one point of contact makes life simple, easier and saves your precious time. If you want to tailor the New Nissan Interstar to your individual requirements you can consult our Nissan dealer for our vast conversion offer performed by one of Nissan's Certified Partner Body builders.

Front wheel drive panel van

Front wheel drive new Nissan Interstar delivers what your business needs: greater efficiency. A lower kerb weight helps improve fuel economy, reducing your running costs. The low frame height makes loading easier and allows a bigger payload. It's the Van that gives you more, but demands less.

WEIGHTS AND LOADS

	Max. cargo volume (m ³)	Max. payload (kg)

Kerb weight includes fluids and fuel tank 90% full and excludes the driver (75kg). Payload is calculated as the difference between gross vehicle weight (GVW) and kerb weight. Kerb weight is affected by factors such as body styles and options. The weight figures in the table are related to a standard-specification vehicle according to type approval data. Any additional options specified on the vehicle will increase its kerb weight and reduce its payload accordingly. All weight figures are subject to 5% manufacturing tolerances.

Rear wheel drive panel van

Rear wheel drive new Nissan Interstar offers practical versatility, with the capacity and strength to handle all your medium duty carrying applications. Its Rear Wheel Drive layout creates optimum front-to-rear balance, for better payload distribution. It also ensures surefooted and stable driving characteristics when fully loaded, and makes it ideally suited for towing.

*With extended door mirror arms

Kerb weight includes fluids and fuel tank 90% full and excludes the driver (75kg). Payload is calculated as the difference between gross vehicle weight (GVW) and kerb weight. Kerb weight is affected by factors such as body styles and options. The weight figures in the table are related to a standard-specification vehicle according to type approval data. Any additional options specified on the vehicle will increase its kerb weight and reduce its payload accordingly. All weight figures are subject to 5% manufacturing tolerances.

Crew van

For every team member, it makes business a pleasure: with large window areas and comfortable seats, the new Nissan Interstar Crew Van delivers up to seven people fresh and ready for work and still gives the opportunity to keep enough space in the cargo area.

Dropside

Based on a robust chassis, the new Nissan Interstar Dropside combines a low loading height with fold-down side panels to make light work of even its maximum 3.5 ton Gross Vehicle Weight. Easy, all-round access to the load space makes it easier to handle large, heavy loads, while a choice of single or double cab (2/3 seats or 6/7 seats) further extends its versatility.

NISSAN LCV 5 YEAR MANUFACTURER WARRANTY

NISSAN now offers a standard 5 Year Pan-European Manufacturer Warranty on its whole LCV range*. This is much more than just a warranty as it includes:

- 5 Year or 100 000 miles bumper-to-bumper protection
- 5 Year NISSAN Genuine Parts & Accessories Warranty
- 5 Year Roadside Assistance
- Fully transferable

And with service intervals at 2 years or 25 000 miles for Diesel engines, you'll not only have 5 years of peace of mind but also low running costs into the bargain.

AT NISSAN, YOU BRING OUT THE BEST IN US.

You spark our imagination. You provoke our ingenuity. You inspire us to change the rules and innovate. And at Nissan, innovation is not just about additions and extensions; it's about crossing the line to reinvent the status quo. It's about developing unexpected solutions to satisfy your wildest and most pragmatic desires. At Nissan, we design vehicles, accessories and services that break the mould - making the practical exciting and the exciting practical to offer you a more exhilarating driving experience everyday.

*5 Year / 100 000 miles (whatever comes first) Manufacturer Warranty for the LCV range (with the exception of e-NV200: 5 Year / 60 000 miles Manufacturer Warranty for EV system parts, 3 Year / 60 000 miles for the rest of the vehicle)

Unlimited mileage for Nissan Genuine Parts & Accessories, Warranties and Roadside Assistance.

For more details, please refer to Nissan Warranty Booklet.

CUSTOMER SERVICES

SPECIALISED LCV NETWORK

NISSAN provides a specialised network of LCV dealerships to support your specific commercial vehicle requirements:

- Pan-European coverage
- Dedicated LCV Sales & After Sales staff
- Competitive financing solutions
- Tailor made conversion offers
- Competitive extended warranty offers to go even beyond NISSAN LCV 5 Year Warranty.
- Test drive your choice

AFTERSALES SERVICES

If your car breaks down, it's inconvenient. If your van breaks down, it's a serious blow to your business. Even time allowed for servicing is downtime, when your van isn't earning its keep. At Nissan, we understand these hard business facts. So we do the best to ensure that your van stays where it belongs – working for you, on the road.

NISSAN SERVICE CONTRACTS AND EXTENDED WARRANTY

For total peace of mind and budget control, you can subscribe to a Nissan Service Contract which will cover your periodic maintenance and Wear & Tear parts for the mileage and period that suits your business best. This way, you can ensure that your new Nissan Interstar is serviced by dedicated Nissan technicians. And for even more serenity, you can get an Extended Warranty to cover possible mechanical and electrical breakdown after the end of your new Nissan Interstar warranty.

5 YEAR ROADSIDE ASSISTANCE

- Pan-European coverage for breakdowns, accidents, non-warrantable incidents (such as flat tyres, lost keys, wrong fuel...)
- 24/7, 365 days
- Emergency Call Centre
- Prompt roadside assistance

If this is not possible and your vehicle is still immobilised after a few hours, we will make sure you are provided with a courtesy vehicle as soon as possible or if necessary, overnight accommodation and travel to your onward destination or back to your base. We will also recover your immobilised vehicle.

Nissan Intelligent Mobility moves you one step ahead. In vehicles that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving us to a world that's safer, more sustainable, and exciting.
